THIRD FINANCIAL

THIRD FINANCIAL SPONSOR WMA CONFERENCE

Third Financial Software (TFS), has been unveiled as one of the leading exhibiting sponsors of this years Wealth Management Association's Annual Summit, being held on 9th November at the Grange Hotel Tower Bridge. With over 400 delegates expected at the central London location, the biggest industry conference of the year promises to be a huge success.

Third Financial's multi award winning, Tercero Software, is widely regarded as the most contemporary, integrated front-office to back-office wealth management system available today and has one of the largest installed client bases in the country.

To further reflect the conference's aim to encourage the wealth community to debate the future of our industry, TFS will be bringing along some innovative new digital products to their stand to get delegates talking about the possibilities for new technologies.

The team will be serving up super 'high tech smoothies' (appropriately named by TFS staff) whilst delegates are given the chance to try and win some of the coolest new Virtual Reality (VR) technology products including HTC Vive's and Samsung VR Oculus products.

Stewart Foster, CEO, Third Financial comments:

"2016 has been a historic year for the company as we have received an unprecedented level of demand for our pioneering new Digital Wealth application, announced to the market in June. As a high tech company it is only fitting that we will be demonstrating an array of the newest technology gadgets to get people

talking about future developments in the wealth technology space. We'd like to extend an invitation to all attendees to come and have a go with the newest VR products, with lots to give away, whilst we discuss our new products."

NOTES TO EDITORS
